

BRODER METALS GROUP CA104

Aluminium Bronze CA104 is a high strength aluminium bronze alloy, with corrosion resistant properties suitable to marine and chlorine environments.

Specifications and Stock

Broder Metals can provide Aluminium Bronze CA104 with the intent to meet ASTM B124/B124M-08a Cu Al10 Ni5 Fe 4 DIN 17 665 UNS C63200, C63000 CA 104 BS 2872, 2874, 2875 Cu Al10 Ni5 Fe 4 ISO 428.

Applications

Aluminium Bronze CA104 is favoured for its strength and resistance to erosion and corrosion in sea water. Key uses for the marine industry are high strength fasteners, springs, bearing bushes, valve and pump components. Alongside marine uses Aluminium Bronze CA104 is used for fasteners, springs and several components for the aerospace and automotive industry.
