**We welcome David Smith to  
Broder Metals**

We would like to say a huge Broder Metals welcome to Dave Smith who joins our UK bar sales team and joins Richard and John dealing with your enquiries.

**Our Broder Blog**

As a family run company, we like to let our customers know what is happening

Alloy T41 - in April / May we received (and have sold most of) 48 tonnes of Alloy T41 bar stock. We expect the balance of the order of 9 tonnes to arrive in mid-June 2014. We have then placed a new order for October / November delivery for a further 54 tonnes. It is certainly a challenge to keep up with demand.

Nickel Price increases feeding through - just an early warning. With nickel prices rising by 39% so far this year, we have been wondering when we will see mill prices rising. That first indication is here now, with mill quotes for Alloy 625 being 7% higher than a year ago and our high tensile stainless prices rising by 20p per kg with effect from 1 June.

Look out for our new general news release - *"International metals stockist Broder Metals Group has added Iceland to its export list after it took an order from a company in the oil, gas and petrochemical industry this month based in that country"*. Iceland is the 42<sup>nd</sup> country that we have exported to since 2007.

inside and more importantly outside of work. Please see a few of the links below from our Broder Blog.....

**Its the end as we know it**

*We have seen the end of what has been a long hard but enjoyable football season for one of our sales executives. Richard L... click [here](#) for more information*

*Growing up at Broder*

Several staff have worked at Broder since the day they left school. This is the story of how one member of staff (we will call him Danny... click [here](#) for more information
